SUMMARY

Software Engineering undergraduate with hands-on experience building and deploying full-stack web and mobile applications using Java, Spring Boot, React, and PostgreSQL. Experienced in REST API development, automated testing, Dockerized deployments, and Agile software development through three industry internships. Seeking a Software Engineer or Backend Engineer role.

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT) — BSc (Hons) in IT (Software Engineering) Oct 2023 – Present

GPA: 3.44/4.00 | Expected Graduation: 2027

TECHNICAL SKILLS

Languages: Java, C#, JavaScript, TypeScript, SQL, Kotlin

Frameworks & Libraries: Spring Boot, React, React Native, Node.js, Express.js, Firebase

Databases: PostgreSQL, MySQL, MongoDB, Firebase Firestore

Testing: JUnit 5, Mockito, MockMvc

Tools & Technologies: Git, GitHub, Docker, Swagger/OpenAPI, Postman, Azure, n8n, Google Apps Script

Methodologies: REST APIs, MVC Architecture, Agile Scrum, Object-Oriented Programming

PROFESSIONAL EXPERIENCE

Software Engineering Intern | WattSoft – Kegalle, Sri Lanka

Feb 2026 – Present

- Engineer and maintain full-stack web and mobile applications using Spring Boot, Java, React, TypeScript, React Native, and PostgreSQL
- Architect and implement RESTful APIs connecting backend services with frontend applications, documented via Swagger/OpenAPI for streamlined integration
- Author comprehensive unit test suites using JUnit 5, Mockito, and MockMvc, increasing test coverage and ensuring code reliability
- Containerize applications using Docker to standardize deployment across environments; collaborate within Agile Scrum teams through sprint planning, stand-ups, and code reviews

Automation & Data Operations Intern | Digit Webs Lanka – Jaffna, Sri Lanka

Dec 2025 – Feb 2026

- Designed and deployed workflow automation solutions using n8n, streamlining repetitive business processes
- Integrated external REST APIs and automated data processing using Google Apps Script and Google Sheets
- Configured AI-powered automation workflows to support operational efficiency
- Built end-to-end automation pipelines combining APIs, scripts, and cloud-based spreadsheet solutions

Software Engineering Intern / Developer Intern | Digiline Cloud Pvt Ltd – Sri Lanka

Apr 2025 – Oct 2025

- Developed and maintained web-based applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js), with additional exposure to Laravel
- Developed and integrated APIs and performed database-related development and data handling tasks as part of the software development team
- Conducted software testing and debugging, assisting with the identification and resolution of software defects
- Collaborated with development team members throughout development and testing processes over a six-month internship

PROJECTS

LegalAid Sri Lanka – eCourt Scheduler | MERN Stack

- Reduced court-hearing registration time by 40% by building a full-stack scheduling platform with secure role-based authentication, using React and Express.js REST APIs
- Collaborated in an Agile team using Git-based version control

Hospital Management System | Java, MySQL, MVC

- Improved patient-record retrieval speed by 30% by designing a relational database schema and applying MVC architecture across a desktop application serving 50+ concurrent workflows

Henna Appointment Booking System | React, Firebase

- Cut appointment double-booking incidents by 90% by building a real-time SPA with Firebase Authentication and Firestore sync
- Designed reusable UI components to improve scalability and maintainability

Wellness Mobile Application | Kotlin, Android Studio

- Increased user engagement by 35% by implementing Fragments, SharedPreferences, and push notifications across a habit and mood-tracking Android app

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Microsoft Certified: Azure AI Fundamentals (AI-900)
- React Certification

LEADERSHIP & ACTIVITIES

- President, IT Union — led a 20-member student body organizing 6 technical workshops and 2 department-wide hackathons, growing active membership by 30%
- Participant, CODEFEST National Software Competition & Mini Hackathon — built and pitched a working prototype in a 4-member team under a 24-hour deadline, competing against 50+ national teams
